DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 9,11,13, 21-22, and 25 are rejected under 35 U.S.C. 102(b) as being anticipated by Mori et al.

Mori et al show a headrest assembly comprising a headrest guide (13) having two generally cylindrical sleeves (13a), wherein each of the sleeves forms a channel. The headrest guide is formed with the two cylindrical sleeves as a single, integrally molded, unitary component and the two sleeves being rigidly interconnected to each other adjacent upper and lower ends of the sleeves. A headrest insert (4) is provided and two generally parallel rods (31,32), wherein each of the rods is fixed at one end with respect to the headrest insert and slidable at an opposite end with respect to one channel in the headrest guide.

With claim 13, the headrest insert tapers from each outer end toward a center portion.

With claim 25, the headrest guide is connected to a guide frame (9).

Allowable Subject Matter

Claims 23-24 and 26-27 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
